LIBRARY CONNECT

Supporting the ANBG's vision to inspire, inform and connect people to the Australian flora.

December 2021.

Hi all,

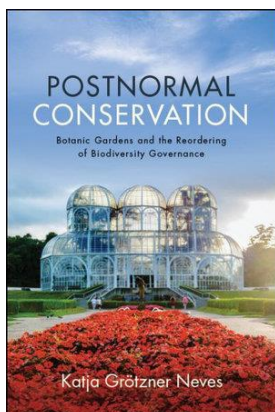

Just a quick Library Connect to tell you about some new books we've added to the library collection. If you would like to borrow any of them, please [contact the library](#) and I'll let you know when they are available to collect.

The library will be open Mon-Fri 9.30-4.30 from Jan 4, 2022, but we still have restrictions on numbers and, as the covid situation is always evolving, please call or email before visiting. And don't forget your mask!

The "click and collect" boxes in the Visitor Centre are still available if you would like to return items, and I'm very happy to leave items there for collection if that's easier than visiting the library.

Wishing you all a very happy and safe festive season and I hope to see you in the New Year!
Alex

New books

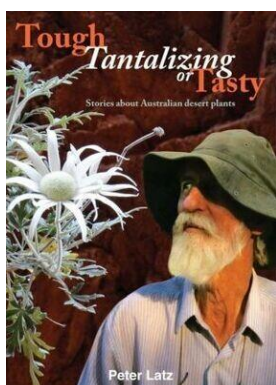

[Postnormal conservation: botanic gardens and the reordering of biodiversity governance / Katja Grötzner Neves.](#)

Albany : State University of New York Press, [2019]
ISBN: 9781438474557

Explores the evolving role of botanic gardens from products and enablers of modernity and the nation-state, to their recent reinvention as institutions of environmental governance.

Shelf no. **580.73 GRO**

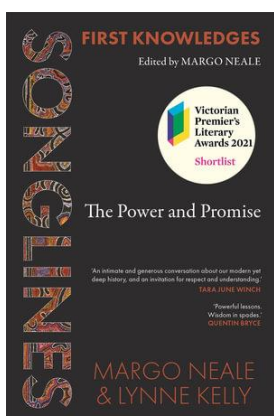

Tough, tantalising or tasty : stories about Australian desert plants / Peter K. Latz.

Alice Springs : Olive Pink Botanic Garden, 2021
ISBN: 9780646836379; 0646836374

Tough, Tantalizing or Tasty allows us glimpses into Peter's extraordinary life. It is about Australian desert plants, their habits and habitats; Peter's great respect for Aboriginal people's knowledge and use of plants; the significant work undertaken with and by fellow botanical scientists; and about Peter's many adventures crisscrossing his beloved desert.

Shelf no. **581.994 LAT**

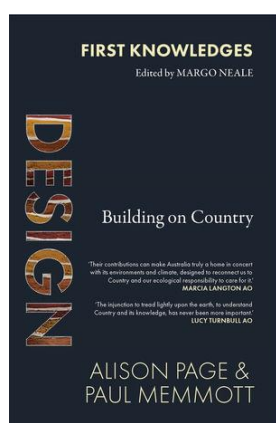

Songlines : the power and promise / Margo Neale & Lynne Kelly.

Port Melbourne, Victoria : Thames & Hudson Australia, 2020
ISBN: 9781760761189

Weaving deeply personal storytelling with extensive research on mnemonics, this book offers unique insights into Indigenous traditional knowledges, how they apply today and how they could help all peoples thrive into the future.

Shelf no. **305.8991 NEA**

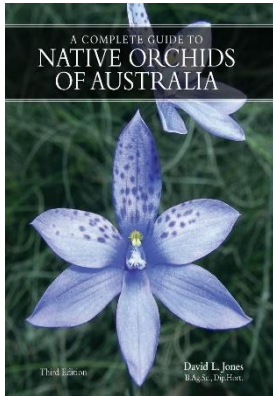

Design : building on country / Alison Page and Paul Memmott.

Port Melbourne, Victoria : Thames & Hudson Australia, 2021
ISBN: 9781760761400

Aboriginal design is of a distinctly cultural nature, based in the Dreaming and in ancient practices grounded in Country. This book issues a challenge for a new Australian design ethos, one that truly responds to the essence of Country and its people

Shelf no. **305.89915 PAG**

[A complete guide to native orchids of Australia: a botanical obsession / David L. Jones ; line drawings by David L. Jones.](#)

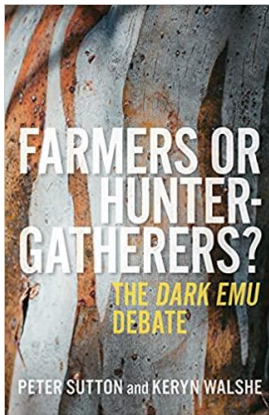

Frenchs Forest, N.S.W. : Reed New Holland, 2021

Third edition

ISBN: 9781921517709

This book, the magnum opus of Australian orchid expert David L. Jones, is a new and much improved edition of what is already the best and most authoritative book on the subject. The First Edition, published in 1993, was spectacular and comprehensive, describing more than 1,300 species and subspecies. Line drawings helped the reader to easily determine the genus of each orchid observed.

Shelf no. **584.40994 JON**

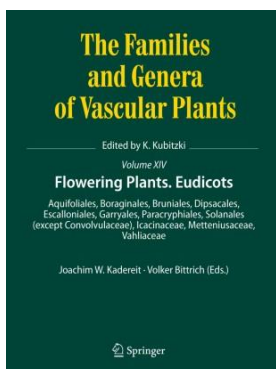

[Farmers or hunter-gatherers? : the Dark Emu debate / Peter Sutton and Keryn Walshe.](#)

Carlton, Victoria : Melbourne University Press, 2021

ISBN: 9780522877854; 9780522877861

Australians' understanding of Aboriginal society prior to the British invasion from 1788 has been transformed since the publication of Bruce Pascoe's Dark Emu in 2014. It argued that classical Aboriginal society was more sophisticated than Australians had been led to believe because it resembled more closely the farming communities of Europe. In Farmers or Hunter-gatherers? Peter Sutton and Keryn Walshe ask why Australians have been so receptive to the notion that farming represents an advance from hunting and gathering. Drawing on the knowledge of Aboriginal elders, previously not included within this discussion, and decades of anthropological scholarship, Sutton and Walshe provide extensive evidence to support their argument that classical Aboriginal society was a hunter-gatherer society and as sophisticated as the traditional European farming methods. Farmers or Hunter-gatherers? asks Australians to develop a deeper understanding and appreciation of Aboriginal society and culture.

[The families and genera of vascular plants / edited by K. Kubitzki. Vol. XIV.](#)

Berlin : Springer, 2016.

ISBN: 9783319285320

This volume covers the orders Boraginales, Garryales and Solanales (except Convolvulaceae) of the Lamiids (Asterids I) as well as three unplaced families of that clade, i.e. Vahliaceae, Icacinaceae and Metteniusaceae, and the orders Aquifoliales, Escalloniales, Bruniales, Dipsacales and Paracryphiales of the Campanulids (Asterids II). It is the first of two final volumes to (almost) complete the treatment of the Asterids, which started with Vol. VI (Cornales, Ericales, 2004) and continued with Vol. VII (Lamiales, 2004) and Vol. VIII (Asterales, 2007).

[The botanical art of William T. Cooper / Wendy Cooper.](#)

Canberra, ACT : NLA Publishing, 2021

ISBN: 9780642279712

William T. Cooper was one of the world's most esteemed bird painters. In his paintings, birds nibble at plump red berries, they rest on twisted vines and branches covered with lichen, and they clutch forest fruits and leaves in their claws. These botanical details, the backdrops to his bird portraits, are the subject of this lavishly illustrated book written by his botanist wife, Wendy Cooper.

[Trees / Andrea Debbink.](#)

Series: [Field guides for kids](#)

Minneapolis, Minnesota : Abdo Reference, an imprint of Abdo Publishing, [2021]

ISBN: 9781532193071; 1532193076

This field guide highlights 100 trees found throughout the world. Readers will gain a greater understanding about the appearance of each tree and will be able to identify these plants after seeing the vivid photographs and useful labels within the book. Features include a helpful introduction to the topic, a glossary, additional resources, and an index.

Fire and rust : impact of myrtle rust on post-fire regeneration [electronic resource] / Geoff Pegg, Louise Shuey, Fiona Giblin, Rob Price, Peter Entwistle, Angus Carnegie, Jennifer Firn.

[Brisbane] : National Environmental Science Programme, 2021

While fire is considered an important selection agent in the development of Australia's native flora, the development of new epicormic regrowth and young seedlings en-masse after fire are ideal for the development and spread of the rust fungus Myrtle rust (Austropuccinia psidii). Recent extreme fire events have resulted in significant impacts on a range of different ecosystems, with widespread epicormic and seedling regeneration now occurring, creating ideal conditions for the spread and impact of rust.

Fire and rust : impact of myrtle rust on post-fire regeneration. Update report. [electronic resource] / Geoff Pegg, Louise Shuey, Fiona Giblin, Rob Price, Peter Entwistle, Angus Carnegie, Alistair McTaggart, Jennifer Finn.

[Brisbane] : National Environmental Science Programme, 2021

Extensive surveys assessing the impact of Myrtle rust (Austropuccinia psidii) were conducted following the 2019/20 wildfires. Myrtle rust symptoms and damage were found in all survey sites in fire-affected areas of south-east Queensland and NSW south to the Central coast region. This included coastal heath, woodland and swamp environments, littoral and notophyll vine forests along the coast, inland paper bark swamp ecosystems, inland eucalypt woodlands, wet sclerophyll and rainforest ecosystems as far west as the Great Dividing Range.
